

REFEDS Subcommittee

Verifiable Credentials (VC)

Esther Ruiz Ben, Niels van Dijk

Subcommittee's Target

W3C Verifiable Credentials (VC) are increasingly important to our community with the rise of digital Decentralized Identity and Wallet ecosystems.

However, there is no consistent and community-driven definition for expressing the 'identity related' claims of the commonly used schema managed by REFEDS like e.g. eduPerson, SCHAC, and voPerson.

This subcommittee sets out to define the VC representations of these well-known credentials so they may be used in a standardized and interoperable way.

Meetings

- **Bi-weekly on Fridays at 08.00 to 09.00 CEST**, beginning October 11th 2024 until October 2025
- **Online Access:**
<https://dfn.zoom-x.de/j/63539226822?pwd=lfkaHx7CCRIakaKKsPtGf5RpaQMyaN.1>
- **The meetings will be recorded. We ask for your permission at the beginning of the meetings**
