Current Task List

Who	What	When	Status
Nicole	FOs don't sign up for Sirtfi - create a template / criteria for involving them in incident response (i.e. get FOs to declare what they are doing and start actively monitoring this). Also encompasses defining what FOs should be doing during incidents.	In Progress	Raised at Steering Committee, small WG created.
Nicole	Peruse NGI Trust funded projects to identify any that may be relevant for Sirtfi.		
Christos	Propose a REFEDS 2020 Work plan item focused on understanding and potentially "regulating" proxy IdPs.		
David G, Uros, **Sven**	Improve sharing procedures in [AARC DNA3.2 paper](#) by folding in experience from EGI.	Expected Dec 19, 2019	
Mario	Ask Dick Visser about taking control of sirtfi.org and CC Nicole		
Tom	Agendize review of educational materials to see if we're done with that Phase 2 deliverable.		
Tom	See about TrustedCI assistance with an IR wiki	Jan 30, 2020	Jan 20: Message sent to Von Welch, TrustedCI PI

January 16, 2020

Attending: Tom, Pål, Alan B, David G, Scott K, Uros

Regrets: Hannah, Dave K, Romain

Agenda:
1. Task review
2. Continue review of [FIR - Extending Sharing Procedures](#), to augment those in [AARC DNA3.2 paper](#).
   a. Alignment with [procedures in AARC DNA3.2 paper](#).
3. Next steps for improving the [AARC DNA3.2 paper](#).
4. AOB

Discussion continued of the draft material Sven has prepared. There is an undescribed model behind the IR procedures which would be helpful to understand when which procedures. Sven will attempt to have something for discussion in 4 weeks. The sharing procedures are focused on the role of an operator of a federated entity, and the AARC paper breaks procedures out for each of various roles. Need to align.

Can TrustedCI help develop something like an IR wiki to be made available on sirtfi.org to benefit entity operators, especially if their organisation doesn't have a well developed set of IR procedures already? Use Sven's material, other sources as a starting point. [Tom] to ask Von about this.
