April 9, 2020

Attending: Tom B, Pål A, Dave K, Hannah, Brett, Romain, Marina, Alan, Sven, David G, Uros

Regrets:

Agenda:

1. Continue review of [eduGAIN Security Incident Response Handbook](#)
 - a. Complete Doc 1
 - b. Get into Doc 2
2. AOB

Great discussion, good comments and live revisions to the first part of Doc 2. We'll continue with this next time.

Along the way we discussed how to bring a common understanding of notification responsibilities and procedures to Federation participants and operators in some detail. One strategy is to incorporate IR procedures into Sirtfi v2, as in Doc 2, so that eventually a Baseline Expectations program will make its adoption ubiquitous. Sirtfi v2 should also have a section that addresses Federation operators.

We considered what role eduGAIN might have in producing this outcome, but that was inconclusive. We also noted that Baseline Expectations is expected to determine a role for eduGAIN in enabling Baseline Expectations, and perhaps that will be a good answer.
