Moving forward with AARC deliverable
- CISO groups
- Sirtfi WG has a good cross-section of stakeholders
- AARC is frozen but should produce derivative works & further docs.
- Most important that the right people agree to the document
- Maybe need to be speaking to FOG directly, ask for their input early on

Could do with more planning for the 3rd stage:
- Plan for session in unconference to consider 2 tasks (paper & procedures/tasks)
- Plan for some activity with deadline for techex

ACTIONS
- Hannah to apply for Sirtfi poster & lightening talk at TNC
- Hannah to do ground work for FIM4R session to update the stage 3 workplan of the WG
