2022 Workplan

These are the proposed top-level areas for the 2022 workplan, drawn from proposals crowdsourced in late 2021 / early 2022.

- REF22-1: REFEDS Coordination and Management
- REF22-2: Specialist Working Groups
- REF22-3: Promotion and Communication
- REF22-4: Standards and Specifications
- REF22-5: REFEDS Services

### REF22-1: REFEDS Coordination and Management

**Lead:** Nicole Harris

**Aims:**
- To progress REFEDS position as an important player within the access and identity management space internationally.
- To build on established relationships with GÉANT project and other federation-related activities around the world.

**Work on RAF v2**
- Revisit and modernize the specifications (formal review).
- Ensure test facilities are in place to enable adoption.

**Harmonize the attribute release-related entity categories (Anonymous Authorization, Pseudonymous Authorization, and Personalized Access).**

**Complete response to 2021 consultation.**

This is an ongoing discussion group and as such has no goals.

Continuation is still under discussion

A working group to look at existing specifications to determine if and how they can be changed to become more protocol agnostic. The goal is to allow enough flexibility to support SAML, OIDC, DIDs, and future undeveloped protocols.

Many federation operators have reported challenges with integrating with Microsoft Azure platforms. This group would establish a community of individuals specifically interested in supporting each other with these integrations and would document best practices as they are developed.

**Set up a monthly / bimonthly set of webinars for REFEDS to help communicate work on core topics (6 topics, 12 webinars, 2 different timezones per webinar). This will help address the communication elements identified in the strategy. Support with a blogpost.**

Support with more social / chat sessions in the evenings for people to talk about their issues.

Initial list of topics: REFEDS Survey, CoCo, Entity Categories, Microsoft, REFEDS resources, general federation maturity / baseline

**Provide support for the development of standards and specifications under the REFEDS banner.**

**Pilot specification work to support implementation requirements.**

**Put in place structures to ensure specification and schema sustainability.**

---

**Promotion and Communication**

**Lead:** Nicole Harris

**Aims:**
- To provide materials and support mechanisms to help federations promote effective approaches to IdPs and SPs.
- To provide feedback on documents produced by other groups to support clarity of messages.
- To reach out to target groups where specific messaging could be beneficial.
