

Federation-Best-Practice Home

REFEDS offers a wide range of advice and guidance on best practice for research and education federations. This space is divided into the following sections:

<p>Value Proposition REFEDS has created a document describing the value proposition for federations. This is a good place to start if you are considering implementing an identity federation and need more background information and support: The Value Proposition for Identity Federations</p>	<p>Business JISC c interna beginn resourc -toolkit s://ider</p>
<p>Policy Template The GÉANT project created a Federation Policy Template to help new and emerging federations quickly understand the requirements for federation policy and to support an interoperable approach to policy creation and implementation. Federations are encouraged to use this template: https://wiki.refeds.org/download/attachments/7143427/Identity%20Federation%20Policy%20Template%20v0.4.pdf</p>	<p>Metadata Unders unders createc encour joining atev0.3</p>
