Introduction

The Data protection Code of Conduct describes an approach to meet the requirements of the EU Data Protection Directive in federated identity management. The Data protection Code of Conduct defines behavioral rules for Service Providers which want to receive user attributes from the Identity Providers managed by the Home Organisations. It is expected that Home Organisations are more willing to release attributes to Service Providers who manifest conformance to the Data protection Code of Conduct. For more information, see Introduction to Code of Conduct.

Contents:

- Normative Documents
- Non-normative, Informational Documents
- Cookbook
- Tools and resources
- Work in progress

Normative Documents

- Code of Conduct for Service Providers
- SAML 2 Profile for the Data Protection Code of Conduct
- Entity Category Definition: Data protection Code of Conduct

Non-normative, Informational Documents

- Introduction to Code of Conduct
- Introduction to Data protection directive
- Managing Data Protection Risks Using the Code of Conduct
- Privacy policy guidelines for Service Providers
