OpenID Connect SAML mapping

Introduction

One of the first tasks the OIDCre group engaged with is to discuss and document a consistent way for mapping identifiers (sub) and attributes (claims) between SAML and OIDC, in the context of how we use these in the R&E community.

Most of the discussion can be found in the OIDCre mailing list archives (https://lists.refeds.org/sympa/arc/oidcre)

These discussions have led to the creation of a (DRAFT) recommendation, which is currently (July 2018) under discussion and is supposed to be presented to the REFEDs community for formal consultation by Oct 2018 at REFEDS39

DRAFT

- White Paper for implementation of mappings between SAML 2.0 and OpenID Connect in Research and Education - https://docs.google.com/document/d/1b-Mle6GLq7qkJLrLWtHJ4nL1fq-vMe77zpXyrq2wp08/edit?usp=sharing
