### eduGAIN Best Practice Guide

Assists federations to produce all the required information for each step in order to streamline the process for both joining federations and the eduGAIN Operations Team.

Federation Managers / Federation Steering

Enabling Users team, GÉANT.

### Attribute Release / Entity Category Training

The goal of the training is to assist identity federation operators in deploying attribute release practices for the Home Organisations and Service Providers in their federations.

The training covers:
- GÉANT Data protection Code of Conduct (CoCo)
- REFEDS Research and Scholarship Entity Category (R&S)
- Case presentations from several federations with different technical architectures
