Notes

1. Administrivia
   a. Schema Extravaganza completed and posted on the wiki
   b. REFEDS 44 coming up, make sure to register if you're going to be there in person
2. SCHAC 1.6.0 Consultation resolution - comments added to the wiki; Heather will handle the additional bug fixes before final release of 1.6.0.
3. Subcommittee status
   a. voPerson has been tagged to 2.0; that means, based on previous discussions, it is now fully under the management of the SEB
   b. The voperson.org domain resolves to the current GitHub location. When we migrate the repository to the REFEDS GitHub, this will need to be addressed. Heather and Benn will work on that.
4. AOB
   a. Benn will create a public #schema channel on the eduGAIN slack instance
