# Entity Category Consultation: Hide From Discovery

Change Log for the Consultation on the Hide from Discovery Entity Category.  The Consultation started on 8th July 2014 and closes on 1st August 2014.

| Number | Current Text | Proposed Text | Action |
| --- | --- | --- | --- |
| 1 | "Candidates for the Hide From Discovery entity category are Identity Providers that are intended not to be shown on discovery interfaces, at least not by default (i.e., without the user or the deployer of the discovery service taking extra steps)." | "Candidates for the Hide from Discovery entity category are Identity Providers that SHOULD NOT be shown on discovery interfaces by default (i.e.,absent other information or explicit choice by the deployer of the discovery service)." | Accept |
| 2 | "Deployers of discovery services may choose to hide such an IdP on its discovery interface." | "Deployers of discovery services SHOULD hide such an IdP on its discovery interface." | Accept |
| 3 | Include a security considerations section - no current text. | Hiding an IdP in DS does not imply that the SPs do not accept assertions from the IdP. | Accept but in more detail |
