OIX FICAM Resources

A good place to start is to review the notes Eric Sachs made for googles accreditation:

- http://sites.google.com/site/oauthgoog/oixgsacert

Also review the requirements themselves:

- http://openidentityexchange.org/trust-frameworks/us-icam (overview)
- http://openidentityexchange.org/sites/default/files/oix-us-icam-loa1-tfp-assessment-package-2010-02-12.pdf

The tables in Eric Sachs notes refer to the second of the above links.

Work has been done to map the OIX approach to assurance within existing federations.

- SWAMID-OIX Mapping.
- UK-OIX Mapping.
