Data Protection Code of Conduct Home

Introduction

The Data protection Code of Conduct v2 describes an approach to meet the requirements of the EU GDPR in federated identity management. The Data protection Code of Conduct defines behavioral rules for Service Providers which want to receive user attributes from the Identity Providers managed by the Home Organisations. It is expected that Home Organisations are more willing to release attributes to Service Providers who manifest conformance to the Data protection Code of Conduct.

REFEDS Data Protection Code of Conduct ver 2.0

Normative documents

- Code of Conduct 2.0 for Service Providers
- Code of Conduct 2.0 Entity Category

Supporting materials

- Privacy Notice Template
- Handling non-compliance
- Good practice for Home Organisations
- How the Home Organisation should inform the End User

Cookbook

- Recipe for a Service Provider
- Recipe for a Home Organisation
- Recipe for a Federation Operator

Tools and resources

- eduGAIN entity browser to check SPs/IdPs using the CoCo in eduGAIN (TBD: update to support CoCo2)
- Monitoring tool to monitor eduGAIN SPs' CoCo compliance (TBD: update to support CoCo2)
- Test SP to test IdPs' attribute release (TBD: update to support CoCo2)
