15.15 - ?	**Short Presentations** - FeduShare - IdPLoR - InCommon Updates	Jill Gemmel, Jim Basney Keith Hazelton Ann West

From Ann West - suggestion: InCommon would like to do an update on a couple of projects we're working on that we think (hope?) will be of interest to our international colleagues. Depending on how far along these are, it could include our market segmentation study and participant views about federation, attribute release study, and the Steward Program (where we're outsourcing on boarding of other orgs).

Maarten Kremers will be in attendance - presentation topics?

Jill Gemmill: I'd like to give a presentation w. Jim Basney and Stefan Paetow regarding the FeduShare project. (Stefan, if you don't plan to be in the US perhaps you can participate remotely?)
