

# SMAPS

## Intro

We have assembled a group of people to work on a document for a framework to assist the writers of SAML Metadata Publishing Policies or SAML Metadata Aggregation Practice Statements for participants within SAML based infrastructures, such as federations, identity providers, service providers and other communities of interest that wish to rely on SAML Metadata.

## Workspace

The document being prepared, this is where all the work is taking place.

[SMAPS document](#)

## Useful materials

The group working on SMAPS would like to surf on the success of [RFC 3647](#).

[EduGAIN Metadata profile](#) as it is being worked on at present.

[A comparison](#) of UK federation operator procedures to our document, by Andrew Cormack

[Metadata extension for entity attributes](#) from OASIS

Note: investigate FIPS 140-3
