Dear All,

Many thanks to those of you that joined us at TechEx - the discussions at the meeting were really excellent and have given us lots of food for thought as we move forward towards the end of the year. I've finished two write-ups from the meeting, I hope you find these useful.

- Federation Operators Panel: https://refeds.org/a/1469
- Stepping up Entities Panel: https://refeds.org/a/1485.

It is the time of year again when we also ask you for your contributions to the 2017 workplan:

https://wiki.refeds.org/display/WOR/2017+Work+Plan+Preparation.

I've also transcribed the proposals from the meeting for the 2017 workplan into the wiki:

https://wiki.refeds.org/display/WOR/2017+Work+Plan+Preparation. Please

Do feel free to add to that - I know there were lots of great ideas from the ACAMP sessions:

https://spaces.internet2.edu/display/ACAMP2016/Advance+CAMP+2016+Home.

Please don't forget to sign-up if you wish to join us at our final meeting of the year in Geneva, kindly hosted by CERN:

https://refeds.org/34th-meeting-november-2016

The agenda is now available. This will be a short half-day update and work planning sesssion, including a full update from the eduGAIN team. Finally a date for your diary and a surprise! REFEDS will as usual hold its first meeting of the year at TNC17: https://tnc17.geant.org/. The surprise is that we will be meeting on MONDAY 29th May 2017, so your weekend is free. Please also note that the call for proposals for the TNC17 main programme is also open as of today:

https://tnc17.geant.org/web/participate/submit.

We look forward to seeing many of you at a meeting near you soon.

Best wishes

Nicole
