About the MFA Subgroup

The MFA Subgroup is tasked by the REFEDS Assurance Working Group to update the REFEDS MFA Profile to make it easier to understand, interpret, and apply, so that:

- an federation SP operators can map it to their strong authentication requirements and trust that a federated IdP has performed MFA adequately.
- an IdP operators has sufficient deployment guidance to make better decisions and test for success.
- software implementers can better understand why, when, and how to support MFA signaling using the REFEDS MFA Profile in their products.
