

2022 Work Plan Preparation

Please use this page to record ideas that you would like to include in the 2022 REFEDS workplan. Copy and paste the table below. Ideas don't need to be fully formed but the more scope we can get the easier it will be to assess whether idea should be taken forward. We look forward to all your ideas!

Ideas

Title	REFEDS Webinars + The REFEDS Bar
Description	<p>Set up a monthly / bimonthly set of webinars for REFEDS to help communicate work on core topics (possibly 6 topics, 12 webinars, 2 different timezones per webinar?). This will help address the communication elements identified in the strategy. Support with a blogpost.</p> <p>Support with more social / chat sessions in the evenings for people to talk about their issues.</p> <p>Survey, CoCo, Entity Categories, Microsoft, REFEDS resources, maturity / baseline</p> <p>Last Thursday of every month. 27th Jan 2022 - 16:00 CET</p> <p>24th February - APAN time.</p> <p>31st March etc etc.</p>
Proposer	Nicole Harris
Resource requirements	coordinator effort plus volunteers for content.
+1's	Alex Stuart (UKf) Pål Axelsson (SWAMID)

Title	Best Practices for Integrating with Microsoft Azure
Description	<p>Many federation operators have reported challenges with integrating with Microsoft Azure platforms. This group would establish a community of individuals specifically interested in supporting each other with these integrations and would document best practices as they are developed.</p> <p>ETA: start with organizing a community of interest, possibly target this as part of the webinar series</p>
Proposer	Heather Flanagan
Resource requirements	volunteers
+1's	Matthew Slowe (UKf)

Title	Attribute Release Entity Categories
Description	Harmonize the text of the Anonymous Authorization, Pseudonymous Authorization, and Personalized Access entity categories (continuing work started in 2021)
Proposer	Heather Flanagan

Resource requirements	coordinator effort plus volunteers for content.
+1's	Pål Axelsson (SWAMID) Alex Stuart (UKf)

Title	Preparing for New Protocols
Description	A working group to look at existing specifications to determine if and how they can be changed to become more protocol agnostic. The goal is to allow enough flexibility to support SAML, OIDC, DIDs, and future undeveloped protocols.
Proposer	Albert Wu
Resource requirements	coordinator effort plus volunteer engagement
